Meet the Team

**Endodontics**

**Dr Philip Mitchell BDS MFDS MClindent MRD**
Philip qualified as a dentist from University College Hospital in 1989, and subsequently completed a Master’s degree in Endodontics at Guy’s Hospital in 1996. Philip has been on the specialist’s register for endodontics since 1999. He is currently a Senior lecturer and Deputy Chairman of the Endodontic examinations board at Kings College London. He has lectured widely in the UK and abroad and has contributed to several textbooks including the last two editions of Harty’s Endodontics in Clinical Practice.

**Dr Bhavin Bhuva BDS MFDS MClindent MRD**
Bhavin graduated from Guy’s, King’s and St Thomas’ Dental Institute, London in 1999. In 2005, he started specialist training in Endodontology at Guy’s Hospital. Bhavin achieved a Distinction in the Master of Clinical Dentistry in Endodontology and also obtained the Membership in Restorative Dentistry of the Royal College of Surgeons (Edinburgh). In 2009, he was accepted on the GDC Specialist Register for Endodontics. Bhavin also enjoys teaching Endodontics to dental students at Guy’s Hospital and is involved in running postgraduate courses.

**Periodontics**

**Dr Roula Tsirmpa Dip DS MSc (perio)**
Roula has been in practice limited to periodontics in London since 1995. After completing an MSc course in periodontology in 1994 at the University Hospital of Manchester she obtained a scholarship for further training and research at the department of Periodontology at the Royal Dental College of Aarhus in Denmark, which is universally considered a Centre for Excellence in Periodontology. Roula completed the Certificate in Dental Implantology at the Eastman Dental Institute in 2002, and is a member of the Hellenic and British Society of Periodontology and American Academy of Periodontology.

**Implants**

**Dr Hatem Algraffee BDS (Lond), MSc (Lond), M.Clin.Dent (Lond), MFDS RCS (Eng), MRDS RCS (Eng).**
Hatem qualified as a dentist from the Royal London Hospital, he then worked in an oral and maxillo-facial surgery department, followed by several positions for various health authorities and general practice. He completed four years full time specialist training in Periodontology at Guys London Hospital. He was awarded a Masters Degree (MSc) in Periodontology and Masters in Clinical Dentistry (M.Clin.Dent) from Guys Hospital. This was followed by the award by examination of the membership in restorative dentistry (MRD) by the Royal College of Surgeons of England. Hatem is also an implant mentor for local dentists. His previous positions were as a Specialist Clinical Teacher at Guys Hospital and as a Senior Dental Officer for Hammersmith and Fulham Trust. Hatem now dedicates his time to Periodontics and Implant Dentistry in private practice.

**Orthodontics**

**Dr Shruti Patel BDS (Lond), FDS RCS (Eng), MSc (Orthodontics), MOrth RCS (Eng), FDS (Orth) RCS**
Shruti was appointed as Consultant Orthodontist at King’s College Hospital in 2003. She is extensively involved in teaching and training future orthodontic specialists and is an examiner for KCL University. Shruti graduated from University College Hospital in 1991. After various hospital posts, she completed her specialist training in Orthodontics at the Royal London Hospital, gaining her MSc in Orthodontics in 1997 and Membership in Orthodontics from the Royal College of Surgeons of England in 1998. She then undertook two years of further training to gain the Intercollegiate Speciality Fellowship in Orthodontics and was subsequently appointed as Consultant Orthodontist at King’s College Hospital in 2003.

**Paediatric Dentistry**

**Dr Purvi Shah BDS, MFDS RCS (Eng), MPaed Dent RCS (Eng)**
Purvi graduated from Cardiff Dental School and worked in general dental practice and in hospital, before undergoing specialist training in Paediatric Dentistry at the Eastman Dental Hospital (UCLH) and Bedfordshire Community Health Services. Purvi currently works as a Senior Dental Officer for Whittington Health, and as a Specialty Dentist for Guy’s and St Thomas NHS Trust. In these posts, she provides comprehensive treatment planning and management for children whose dental problems are more complex, due to anxiety, trauma, special needs or dental anomalies. She also provides oral rehabilitation for children under general anaesthesia.
